## Job purpose

Working within SHP's Policy and Procedural framework, and within a Biopsychosocial model of PIE (Psychologically Informed Environments), you will be part of a team providing an effective, high quality support service to address the presenting needs of clients with complex needs in relation to poly substance misuse, mental health, and a wide variety of associated issues (including: street activity, offending, physical health, background of complex trauma).

Project workers will need to be resilient, innovative, flexible and creative and have a commitment to working collaboratively within a harm minimisation and strengths/recovery framework. Some clients will require advocacy and direct support in relation to social care and health services.

The aim is to improve outcomes for service users both within the service and by enhancing their ability to make use of external community and statutory resources.

## Key accountabilities

### Day-To-Day Shift Delivery

- Contribute to the effective day to day shift cover that supports the aims of the service, safeguards residents and responds flexibly to the immediate presenting needs of clients.
- Participate in the service's rota system.

### Referral, Assessment And Casework

- Throughout the process be sensitive to the fact that clients may be ambivalent about taking-up support, and may have had difficult prior experiences within services.
- Ensure assessment of client strengths as well as deficits, with a whole person focus. Use the assessment process to help the client understand in greater detail the interrelationship between their range of needs and accommodation options.
- Manage a caseload of complex service users, formulating and periodically reviewing a recovery plan that defines the basis for further interventions.

### Risk Assessment And Management

- To ensure the appropriate management of client related risk, through the production of comprehensive and high-quality risk assessment and risk management plans and to review these in accordance with procedural review timescales and in response to changing levels of risk.

### Support And Action Planning

- Working in partnership with clients and others involved in their support, to translate needs assessments into support and action plans which are person centred, outcome focussed, SMART and able to demonstrate clear and appropriate goals and actions towards progression and the achievement of each clients' aspirations.
- Monitor and review plans to ensure tasks and actions are carried out in accordance with procedural review timescales and in response to changing levels of need.
- To act as a central coordination point for external support services and to increase or taper support in line with presenting need.

- 
- Establish an approach to casework that:
    - Encourages engagement with the process and takes account of the communication needs of each client.
    - Enables service users to acquire greater insight into their needs, identify potential solutions, and strengthens their readiness to make positive change.
    - Recognises the links between an individual's needs, their vulnerability to street activity, abuse/exploitation, substance misuse, repeat homelessness and interpersonal conflict.
    - Raises awareness of the impact of unmet support needs in diminishing life opportunities, including access to move-on accommodation and independent housing.
    - Identifies care pathways and treatment options, and support the acquisition of the skills needed to participate in treatment settings.

## **Housing Management**

- To contribute to the project's income through the minimisation of void loss and arrears by:
  - Reporting, monitoring and following up maintenance jobs until completion.
  - Ensuring key clients' income is maximised by accessing appropriate benefits.
  - Monitoring occupation charge accounts and addressing arrears with clients before they accumulate.
